

Peacock Feather Jacket

This work is a combination of knitting and crochet (you should be familiar with both!). The construction is similar to a circular jacket.

Yarn used: Mirage by AdriaFil

Fits sizes 42-54, but can easily be adjusted to bigger or smaller sizes.

Don't miss any of my patterns – subscribe to my shop!

Useful hints:

- Weave in loose threads ASAP
- If there is anything you're not so good at – there are lots of useful videos on YouTube – I have learnt a lot about crafting there myself!
- rounds are always joined by one slip stitch
- when changing colors, use a double thread for the first 3 to 4 stitches, you won't have to weave in ends that way. **Or join yarn of the same color with a Frankfurter knot**

Yarn used: Mirage by Adriaafil
weight when finished: 690 gr

4 balls turquoise (main color)
3 balls dove blue
4 balls dark blue
1 ball very dark blue or black
1 ball light turquoise
1 ball green

1 ball light brown / beige + 1 ball of golden thread

crochet hook 3,5

circular knitting needle 3,5 - 4 60cm

Start with 21 peacock eyes

Start with black or dark blue

Make a magic ring and
3 chain stitches and 14 double crochets
into the ring.

Tighten your ring and slip stitch into the upper
of the 3 chain stitches.

Change to dove blue: begin with 2 chain stitches and increase by placing 2 half double crochets in each stitch around. Close with 1 slip stitch into the upper chain stitch of the beginning.

Now change to turquoise:

Start with 2 chain stitches.

Half double crochet in each stitch around and duplicate every fourth stitch.

Place the last 6 stitches in the center of the magic ring (may need some practice) Slip stitch into the second chain stitch.

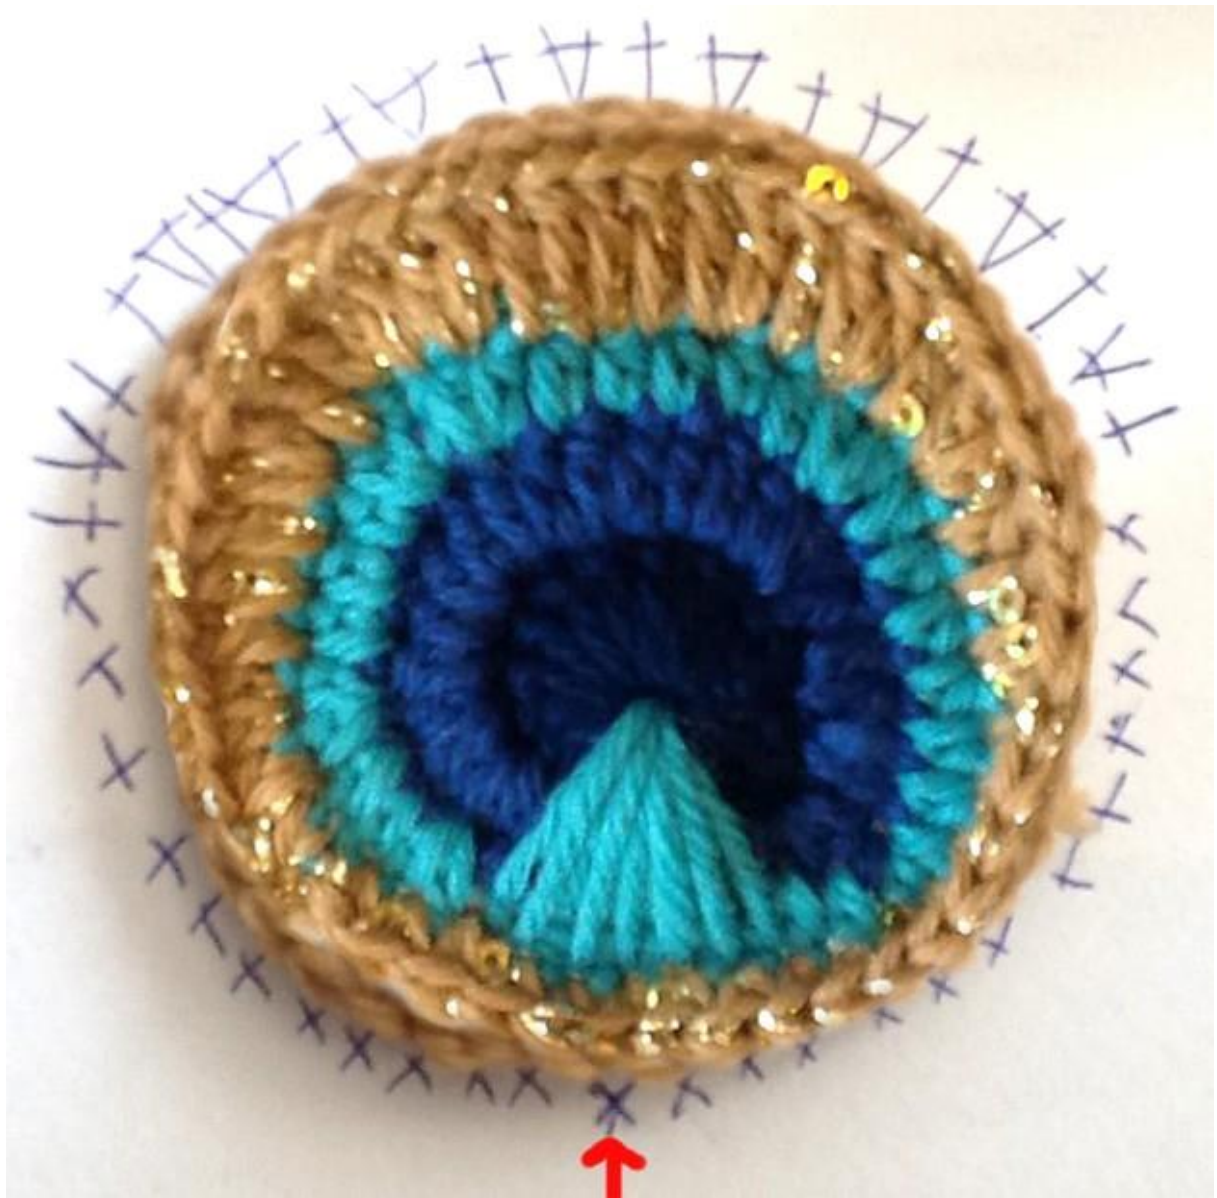

Change to **light brown/beige**, adding the gold thread.

Start at the bottom (red arrow) and make 14 single crochets.

Continue with half double crochets (1 – 2 – 1) and make double crochets into the upper stitches of the row below. I doubled every other stitch here.

See symbols in the picture!

Go downwards accordingly, with 3 half double crochets and 14 single crochets.

End the row with a slip stitch into the first single crochet

The more eyes you make, the better you'll get used to this technique.

Change to green

and single crochet in each stitch around, doubling every fourth or fifth (if you crochet loosely) stitch. Slip stitch in first stitch.

Change to main color turquoise: Start again in the middle (the highest part, as shown in the photo) with one single crochet, and make 7 chain stitches.

Slip stitch into the single crochet, 2 single crochets into the next 2 stitches,

and 6 chains.

Slip stitch into the 2nd single crochet
2 single crochets and
5 chain stitches
4 chain stitches
3 chain stitches
3 chain stitches

Continue with single crochets until you have 10 green single crochets left in the row below:

and make single crochets until the beginning of the row.

then 1 picot with 2 chain stitches....2..single crochets then 1 picot with 3 chain stitches.....2..single crochets then 1 picot with 4 chain stitches.....2..single crochets, then 1 picot with 5 chain stitches.....2..single crochets then 1 picot with 6 chain stitches.....2..single crochets

last stitch: 1 slip stitch into the 1st single crochet.

For fringes:
Wrap the yarn around a book and cut them to an even length

weave in

and trim

Now for the jacket as such: It has basically the same construction as a circular jacket

....only the beginning is different it is knitted!

Which makes a great silhouette especially on the back!

My jacket fits sizes 42 – 52. **I cast on 96 stitches on the circular needle.**

You can of course make more or less stitches according to your size.

for smaller sizes: 8 stitches less per size

for bigger sizes: 8 stitches more per size.

The pattern is 2 knit, 2 purl

!!! You start with 3 purl, 2 knit, 2 purl , 2 knit.....continue this way, and end with 3 purl!!!

Turn your work, start with **3 knit** and end with **3 knit**.

The finished piece should fit around your arm at the shoulder (armhole).

You can check by folding

x on x

or **o on o.**

If it fits loosely around your arm, you have done right.

I had to knit 50 cm (unstretched, lying flat). (If the armhole turns out too big you can make it smaller by sewing it together when you're finished)

now fold **O on O** (or **X on X**)

and make a few single crochets, crocheting the sides together.

Almost done

Looks good already, doesn't it!

Only crochet from now on.

Continue in the same color for 3 rounds, making double crochet fans. **2 double crochets..2 chain stitches... 2 double crochets**

Make them always into the same space, in the middle between 2 purl stitches

Start with 3 chains, 1 double crochet, then 2 chain stitches... 2

double crochets, all in the same stitch... continue with 2 double crochets, 2 chains, 2 double crochets ... for one whole round.

Last stitch: 1 chain into the upper chain of the 3

2nd round: slip stitch into the middle of your first crochet fan, make 3 chains, 1 dc, 2 ch, 2 dcs

...for one more round.

Then 1 round in the same color,
but with
3 double crochets (i.e. 6 per fan)

Change to dove blue.

1st round:

3 double crochets..2 chain stitches... 3 double crochets

Next round

**4 double crochets...2 chain stitches... 4 double crochets
for 4 rounds as a whole**

then one round with 5 double crochets..2 chain stitches... 5 double crochets

Change to dark blue

next round:

5 double crochets... 2 chain stitches... 5

double crochets

Now for something new - round 10

**5 double crochets..2 chain stitches... 5 double crochets a n d
round 11**

5 double crochets..2 chain stitches... 5 double crochets and 2 chain stitches

round 12:

5 double crochets..2 chain stitches... 5 double crochets and 2 chain stitches

round13:

5 double crochets..2 chain stitches... 5 double crochets and 3 chain stitches

Change to the darkest blue (or black)

round14:

5 double crochets..2 chain stitches... 5 double crochets and 3 chain stitches

round15:

5 double crochets..2 chain stitches... 5 double crochets and 4 chain stitches

You are done now, unless you want your jacket bigger / longer. You can of course add a few more rows, but don't forget the increases (1 more chain between the double crochets per round)

If you want it smaller, just make one or more rows less!

START EACH ROUND with 3 chains and end with 1 slip stitch into the upper of the 3 chains

The last round consists of single crochets only. You will add the 11 peacock eyes in this round.

Fasten them with pins first to be sure to distribute them evenly!

Make 5 single crochets onto the chain stitches, 5 more onto the double crochets and 2 chain stitches into the chain space:

Fasten the upper border of the peacock eyes with a few single crochets (15 approx.) from tip to tip

...crochet only into the back loops of the single crochets of the peacock eyes

last stitch: slip stitch into the first single crochet

Sleeves

I used the same color as for the knit part.

Make one round of double crochet fans:

I have 17 double crochet fans with 4 double crochets, distributed evenly around the armhole.

Begin with 3 chains and 3 double crochets. Then always 4 double crochets and 3 chains.

Last stitch: slip stitch into the upper of the 3 chains.

Continue this pattern for 17 rounds
or as long as you want your sleeves. Mine are $\frac{3}{4}$ length

(Photo: round 13 and following)

In round 18 change to dark blue and make 1 increase to give the sleeves a nice shape.

Make the crochet fans always into the space between the dove blue crochet clusters

2 double crochets..2 chain stitches... 2 double crochets
begin with 3 chains

Last stitch: slip stitch into the upper of the 3 chains.

Next round: increase round:

2 double crochets..2 chain stitches... 2 double crochets
begin with 3 chains

Last stitch: slip stitch into the upper of the 3
chains.

Make 5 of these rounds

then 3 more rounds in the **darkest blue / black**

3 double crochets...2 chain stitches... 3 double crochets and **1** chain stitch

3 double crochets...2 chain stitches... 3 double crochets and **2** chain stitches

3 double crochets...2 chain stitches... 3 double crochets and **3** chain stitches

Make the 2nd sleeve accordingly

Finally fasten the remaining peacock eyes onto the back as shown in the photo

and you are done!!!!!!!

Oh, I almost forgot... you can use a button or brooch to close your jacket at the front.

I prefer mine open.

Congratulations! Enjoy your beautiful work!

**Woolly greetings
from Munich!
