

⑦ FREQUENTLY ASKED QUESTIONS

Q: What is Tendrilis? Is it a language?

It is a constructed script or writing system to replace the Latin alphabet. It's not a language. You can write it in English or another language that uses primarily the Latin alphabet.

Q: Can I use Tendrilis in my creative projects (art, music, book, game, spells, tattoo, etc.)?

A: The default answer is yes! I'm so so so happy to see Tendrilis being used creatively. Please credit me (Anomalis) if you can, and tag me or share with me your creations. I'm only against reuploading my guide or claiming that you created Tendrilis to sell it.

Q: Can you add <insert a character> to Tendrilis?

A: Unfortunately I won't be able to keep adding more characters. There are so many characters and languages that I don't speak. If you need more characters for your language, you can try to make up your own characters. It's fun!

Q: Can I modify Tendrilis or make my own rules?

A: You are absolutely welcome to modify it however you want in your own writing. Once it's on your paper, it's your own creation. I will not modify Tendrilis anymore myself, to keep it consistent for everyone who learns it for the first time.
